Terrible Train Of Troubles.

Lake Charles, La.—Mrs. E. Fournier, 516 Kirby street, says: "The month before I took Cardui, I could hardly walk. I had backache, headache, pain in my legs, chills, fainting spells, sick stomach, dragging feelings, and no patience or courage. Since taking Cardui, I have no more pains, can walk as far as I want to and feel good all the time." Take Cardui and be benefited by the peculiar herb ingredients which have been found so efficient for womanly ills. Cardui will relieve that backache, headache, and all the misery from which you suffer, just as it has done for others. Try Cardui. Advertisement.

STRANGE POLICY.

"Isn't Doctor Pilem something of a quack?"
"I believe he will use any kind of treatment he thinks might cure the patient."

SWEET INNOCENCE.

"Why do you hesitate about marrying me?" asked the young army officer. "It's just this," faltered the dear girl.
"Yes?"
"Would I have to live in a tent?"

LOCATE BODIES OF DROWNED

Experiment of Setting Hat Adrift
Proved Successful After Disaster
on the Rio Grande.

As a means of locating the bodies of four United States soldiers who were accidentally drowned in the Rio Grande recently an unusual experiment was tried and proved successful.

A hat was thrown into the water at the point where the men had last been seen and was followed downstream until, after traveling about five miles from the scene of the accident, it came to an eddy where it moved about slowly for some time. This gave the searchers what they thought might be a clue and, following a practice frequently used in searching for bodies, a charge of dynamite was exploded at the point where the progress of the hat had ceased. Immediately the bodies came to the surface.

The explanation of the experiment is that the Rio Grande in this region is tortuous and has many eddies. The searchers rightly assumed that the bodies would be carried down stream until they came to an eddy, which in this instance was indicated by the retarded progress of the hat.

MALE BIRTHS EXCEED FEMALE

Students of Heredity Puzzled Over
Sudden Change of Sex Ratio in
Central America.

A sudden change in the sex ratio among certain tribes of aborigines in Central America is noted by Henry Pittier of the bureau of plant industry, Washington, in the Journal of Heredity.

Among the adult Tirib there are now 202 males to 326 females, but among children there are 203 boys to 167 girls.

Among the Bribrí there are 288 men to 369 women, but among their children there are 203 boys to 137 girls.

Both of these tribes inhabit mountain fastnesses in Costa Rica, near the Panama boundary. They have been subjected to cruelty and oppression almost since the Spanish conquest and are rapidly dying out. The sudden change in the ratio between the sexes is difficult to account for.

IN THE SUBURBS.

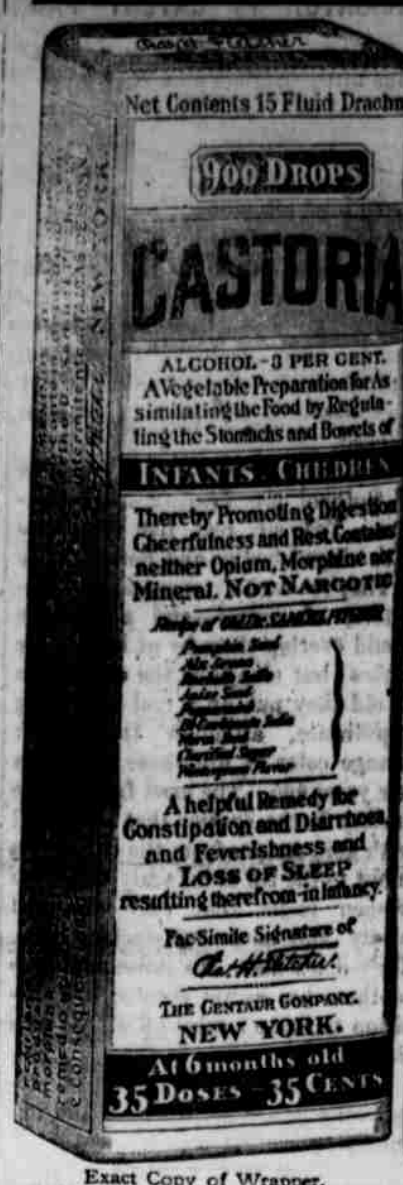

"Aren't you on good terms with your relations, Mr. Smith?"

"I used to be, but since I got this place and charged board they are not on good relations with my terms."
